

## SB 1383 Statewide Waste Regulations Business and MFD Requirement Checklist

---

---

### Collection Services

- Containers for landfill and recycling collection are of adequate size and service to prevent overage.
- If recycling services are not provided by Recology (e.g. a third-party hauler) a waiver has been granted by the City.

### Indoor Receptacles

- Employees, customers, and tenants have access to recycling receptacles wherever trash cans are present in common areas.
- All waste receptacles are color coded (gray for landfill, blue for recycle) or clearly labeled.

### Education and Training

- Employees or tenants have received yearly education regarding proper waste sorting procedures.
- Training efforts have been logged with dates, names, and training materials used.

### Contamination and Monitoring

- Landfill and recycle receptacles are inspected for contamination on a regular basis.
- Employees or tenants are reminded of proper sorting procedures if receptacles are found to be contaminated.
